

FAREWELL SPEECH FOR STUDENTS BY TEACHER

Good morning to the respected Principal sir, Vice-Principal sir, my colleagues and dear students. It is a very special day when we are giving a farewell party to our students of class 12th standard of batch 2015.

Today on 15th of March we have gathered here in huge number to bid farewell to the group of young students after spending almost 12 years in this school. They have been waiting for many years to go outside and join the college, and see, finally, the day has come here to break their long time wait and leave the school's portals in order to give them chance to step into a new world of college.

As being a class teacher of the class 12th standard students, I would like to say something about them what I have been felt about them in such a long period of 12 years. Really they deserve to admire from me

as they all are gentlemen. My dear students, it took twelve long years of us and you in shaping you for your bright future. At a time teacher also learn many things together with his students. So I did the same too, I saw my own growing childhood in you. In order to grow and shape a student, both students and teachers have to effort and battle together by the same force.

Students become the subject of teacher's actions, target of teacher's thoughts and a compliment of teacher's endeavours. It is true that you have been taught by us however it is also true that we too have learnt so much from all of you. It was a long journey, however, spent very quickly just because of your will to do something better in future. This school has seen your childhood and adolescence, and now you are continuing to enter into your Adulthood of life stage. It was very tough task for us to deal with you in your childhood, however, became a while easy into your adulthood. What we did (whether good or bad) was the process to shape you all for future and make a good human being for the country.

It's all was our responsibility; sometimes we loved and care you and sometimes loaded you with hard tasks. My dear students, it is my advice to you all that, do not look back by standing at the threshold of this school. Just look forward and go ahead to see the world, our well wishes are always with you. The world needs more intelligent youngsters like you my son. Success will be on your way, just keep

something in your mind that be always right in your actions and never forget that truth always wins. Use your power to make others happy and not sad. Never surrender to any bad situation and keep strong belief in yourself. Go and earn name, fame and money and come back to me to tell us your success stories. I would like to share you some inspirational lines well said by the Swami Vivekananda:

“Take up one idea. Make that one idea your life—think of it, dream of it, live on that idea. Let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success.”

Thank you.

FAREWELL SPEECH FOR STUDENTS BY PRINCIPAL

Good afternoon to the respected teachers and my lovely students. We are here to give a farewell party to my brilliant students of class 12th standard. Welcome you all for your nice coming in the farewell party today on 16th of March. I would like to say something about my dear students in my own words. Students become the most important asset of the school, without them schools and teachers are nothing. However, it is also true that a student is nothing or incomplete without a good teacher. So, both are equally responsible for each others significance. We cannot say that only teachers play great role in the students life alone, however; students also play great role in making the value and importance of teachers. Both needs equal participation in shaping the students career. A good student can do nothing in the absence of a good teacher and a teacher feels bad luck when hi/she does not get a good student. It is teacher’s responsibility that he/she has to bring a student on the right track however, it is also the responsibility of a student to follow his/her teacher orders to be on the right track. They need to support each other in the school equally. Our students are very disciplined, well mannered, punctual and well responsive. They have well contributed to this school for years by helping the staff, organising a committee and other members of the school. In the last five years, our school has developed a lot and got an enviable reputation at district level for offering best education. All have been possible just because of my nice students and hard working teachers.

The district level victory by the students of class 12th standard in the basketball inter-school competition was really surprised for me. I wish my students go ahead more than before and spread the name of this school and their parents. After many years of hard struggle of the students, now the time has come to see them off so that they can see the world by completing their college life. My dear students, according to my experience, you will have to face more hard challenges than before in your later life. However, never get fed up and continue to go ahead having strong confidence and belief in you. It is your belief, courage, patience and hard work which will surely lead you ahead and give you a bright future. My good wishes are always with you and I wish you all the best. I have a nice line for you that is well said by the Albert Einstein:

“Try not to become a person of success, but rather try to become a person of value.”

Thank you very much.

FAREWELL SPEECH FOR STUDENTS BY JUNIOR

Good morning to the excellencies, honourable Principal sir, respected teachers, my seniors and my dear friends. I would like to speech on the farewell party of my seniors on behalf of all the students of my class. Today is the farewell party of our seniors of class 12th standard. We enjoyed together very much in the playground, library and lab room of this prestigious school for many years. We come from different backgrounds however look same in the school as we wear same uniform. We all have different feelings and attitudes however we develop good traits in the school together with our seniors.

Whenever we are punished regarding our home work or other class works, we always get help from our seniors. They always become ready to help us in any condition. They helped us a lot during our football match competition and quiz competition. Whenever I think over all the past memories with my seniors, I get overwhelmed and think that I also has been a senior of my juniors and me too have to owe the same responsibilities to become a good senior.

My respected seniors, today you are taking off from the school life and going to enter the college life to widen your career for the bright future. There is no any doubt in your success, I wish you all the best. It is difficult for us to say goodbye to you. I request you all that please never forget us, we always need you and your assistance in the future. I have some inspiring lines for you said by the Mahatma Gandhi:

“Live as if you were to die tomorrow. Learn as if you were to live forever.”

Thank You
